Value delivered

Easy, Fast & Secure Card Issuance Machine Monivalue 400

Operational Efficiency & Better Customer Experience.

MV400 is, as an intelligent and powerful card issuing kiosk, to deliver fast, secure and personalized card issuing service. MV400 offers proven reliability, easy operation and less maintenance.

Improved productivity in branch

The reliable & powerful MoniValue400 enables to maximize branch productivity by shortening the customer queue for card issuance & reducing issuance costs.

Minimum Maintenance Needs

Greater serviceability in system configuration makes diagnosis and repair easy; and high reliability lowers maintenance needs and costs.

Higher Customer Satisfaction

Versatile printing (e.g. monochrome or full colored, dual-side) satisfies diverse customer preference. It personalizes customer service with the edge-to-edge card issuance.

The World Leader in Human Technology
HYOSUNG TNS

Hyosung is dedicated to making technology work for the humans who use it. We provide solutions that simply work better and more intuitively. Every ATM product, service and support system is engineered to be reliable and flexible. We listen to our customers and constantly improve our offerings to reflect their input. We bring that innovation to banking. It is this commitment to Human Technology that has made us a dependable partner and global leader in the ever-changing world of banking.
