

Full Function Island Drive-up ATM

Maximum Reliability Monimax7800IA is designed to provide 2nd to none reliability in the market with highest uptime and with minimum maintenance needs. You won't have to worry about replacing the parts or sudden breakdowns because the Monimax 7800I is designed to run for a very long time, problem-free.

Environment Stewardship With quality comes also responsibility. Monimax series are equipped with energy saving features like low energy LCD and long lasting ATM parts with minimum implications to the environment. Deposit automation feature also saves tons of paper over time, giving you the power to build your image as an earth friendly company.

Flexibility - Monimax series are designed with open architecture platform allowing for easy future upgrades and module modifications. Modular design is one of ways in which we are trying to save our customers' cost and provide maximum convenience. Monimax 7800IA can also be easily upgraded to offer deposit automation should an institutions decide to implement the technology in later period.

Ultimate Functionality - Monimax 7800IA offers ultimate functionality featuring bill payment, funds transfer, mobile top-up in a highly user friendly interface for maximum convenience and very easy transition.

Maximum Protection - Complying to standards in various regions worldwide, Nautilus Hyosung offers advanced security measures while highly secured integrity of the Monimax7800IA prevents any attempted security breaches from occurring. Monimax7800IA is also easily integrated with any monitoring solutions to provide seamless data transfer for effective management of the self-service channels.

The World Leader in Human Technology

HYOSUNG TNS

Hyosung is dedicated to making technology work for the humans who use it. We provide solutions that simply work better and more intuitively. Every ATM product, service and support system is engineered to be reliable and flexible. We listen to our customers and constantly improve our offerings to reflect their input.
